Garuda Indonesia
Training Center

Inspiring You to Gain The Future

Garuda Indonesia Training Center (GITC) was Established in 1984. It Used to be known as Biro Pusat Pendidikan dan Pelatihan. GITC provides various kind of training programs to support Airline Industry. Known internally in GA organization as Learning and Development Unit, GITC has priority to develop and execute training activities either for air crew or ground staff.

By adapting the Corporate University concept, GITC ensures that all of its training programs are highly oriented to meet the airline industry requirement. Each of the training program is designed to develop people competence in the scope of hard & soft skill, business mindset and leadership skill as well.

Cargo Training

Global business atmosphere has been changing rapidly. It is not merely passengers to be handled excellently, but air cargo delivery process as well. Consequently, training programs should answer the need of competent people to handle the job easily and fast in the way of reliable, polite and cared service.

Referring to IATA and ICAO standardization, we design the training programs to meet the need of people development in the scope of :

1. Operational staff of airlines
2. Cargo agents
3. Freight forwarders
4. Shippers
5. Cargo export/import specialists
6. Cargo acceptance staff,
7. Cargo managers
8. Cargo specialist of airlines,
9. Courier
10. Consolidators

Apart of the training program above, we also provide aviation security training for both Basic Avsec License and Junior Avsec License.
